

ABSTRACT

The secret of the symbolic degrees discovered !

Each degree of the zodiac has its oracle or symbolic image.

In 987, Hugues Capet usurped the throne of France to the Carolingians when the Sun was transiting through the degree 14 of Cancer entitled « *A dais on which is set a throne, on the cushion of which a dog is lying asleep* », Degree of Usurpation. Louis XVI, guillotined, had the Descendant on the degree 11 of the Pisces symbolized by « *A truncated cone* », Degree of Curtailment. Napoleon had meanwhile Descendant at degree 10 of Taurus showing « *A man seated on a throne, holding a scepter, crowned, and with signs of wealth around him* », Degree of Self Service. One could multiply examples indefinitely.

These *symbolic images* of remarkable accuracy form the *Barbarian Sphere* which is at the heart of Eastern esotericism, where it describes the multiple generation of Beings by Divinity. How were these images designed, how Science presided over this Sphere ? **Mystery**. The secret got lost two thousand years ago with the fall of Middle East civilizations, even if the trace remains in astrology, cabalistic or magic.

The secret has now been discovered. The key of Barbarian Sphere is finally revealed, unveiled the vision of the Spheres, Egyptian astrology rediscovery. The symbolic degrees are based on a surprising cyclic architecture, a kind of mini-astrological charts that simply interpreted to discover the meaning and image of these oracles.

Not only does this book describes in detail the structure of the symbolic degrees, but it verifies its accuracy and allows to build new ; moreover, it reveals the key influence of the stars. It also has a restored version of lists of symbolic degrees : the Golden Sphere (personal list of decans, fifths and degrees), the Thebaic Calendar and La Volasfera. Finally, it presents the Astrolabium planum of Engel, inherited from the great Jewish scholar Ibn Ezra and the Arabs.

Above all, this book makes obsolete the delusional rantings that have proliferated in the last century and opens a vast field of investigation for future generations of esoterics.
